

Dashboard Mount

INSTALLATION INSTRUCTIONS

Item No.: 803238
Left Mount

Nissan Maxima, 2004-2006

Please read all of the instructions and look at the pictures before attaching the ProClip.

ProClip USA may not be held liable for any damage to a vehicle before, during or after the installation or removal of this dashboard mount.

ProClip USA may not be held liable for any personal injury resulting from accident or improper use or installation.

The ProClip mount in the installation pictures may look slightly different from the one you have received. However, the same instructions apply.

Overview Picture

1. Press the thin end of the enclosed gap opener into the gap between the air vent frame and the padded part of the dashboard, to widen the gap.

2. Peel off the cover of adhesive tape on the ProClip. Place it in your hand so the ProClip label (sticker) is in an upright position, or if vertically positioned; the P in the beginning of ProClip is at the top. Press the angled edge on the right side of the ProClip into the gap below the gap opener. Pull out the gap opener.

3. Place your finger as shown in the picture and press firmly downwards, towards the ledge, so the angled edge on the left side of the ProClip goes into the gap between the air vent frame and the padded dashboard ledge. Press until you see or hear/feel it snaps into place.

The ProClip is now in place as shown in the overview picture above.
