

Dashboard Mount

INSTALLATION INSTRUCTIONS

Item No.: 852870
Center Mount

Audi A4/S4 Avant, 2003-2008 (US)
Audi A4/S4 Sedan, 2002-2008 (US)
Audi A4/S4 Avant, 2002-2007 (EU)
Audi A4/S4 Sedan, 2001-2007 (EU)

Please read all of the instructions and look at the pictures before attaching the ProClip.

ProClip USA may not be held liable for any damage to a vehicle before, during or after the installation or removal of this dashboard mount.

ProClip USA may not be held liable for any personal injury resulting from accident or improper use or installation.

The ProClip mount in the installation pictures may look slightly different from the one you have received. However, the same instructions apply.

Overview Picture

1. Press the thin end of the enclosed gap opener into the gap between the air vent frame and the padded dashboard, to widen the gap.

2. Place the ProClip in your hand so the ProClip label (sticker) is in an upright position, or if vertically positioned; the P in the beginning of ProClip is at the top. Press the grooved edge on the upper part of the ProClip into the gap next to the gap opener. Press until you see or hear/feel it snaps into place. Pull out the gap opener. Slide the ProClip sideways (left or right) to desired position.

3. Press forward on the lower part of the ProClip so it goes into the big gap between the dashboard and the center dash ledge. At the same time, press upwards on the lower part of the ProClip so the grooved edge snaps over the panel edge of the center dash ledge. Press until you see or hear/feel it snaps into place. The ProClip is now in place as shown in the overview picture above.
