

## Dashboard Mount

## INSTALLATION INSTRUCTIONS

Item No.: 852978  
Angled Mount

Mitsubishi Eclipse, 2000-2005

Please read all of the instructions and look at the pictures before attaching the ProClip.

ProClip USA may not be held liable for any damage to a vehicle before, during or after the installation or removal of this dashboard mount.

ProClip USA may not be held liable for any personal injury resulting from accident or improper use or installation.

The ProClip mount in the installation pictures may look slightly different from the one you have received. However, the same instructions apply.

### Overview Picture

1. Place the ProClip in your hand so the ProClip label (sticker) is in an upright position, or if vertically positioned; the P in the beginning of ProClip is at the top.  
Open the glove compartment door and place the right side of the ProClip, with the angled edge, into the gap between the center console and the padded part of the dashboard.

2. Slide/push the ProClip upwards so the angled edge stays in the gap and behind the padded part of the dashboard.

3. Press forward on the left side of the ProClip, towards the dashboard, so the grooved edge goes into the gap between the stereo and the surrounding panel frame. Press firmly until you see or hear/feel it snaps into place.

The ProClip is now in place as shown in the overview picture above.
