Volkswagen Golf, 04-Current (EU)
Volkswagen Golf, 07-Current (US)
Volkswagen GTI, 07-Current (US)
Volkswagen Rabbit, 07-Current (US)

Installation Instruction

Please read all of the instructions and look at the pictures before attaching the ProClip.

ProClip USA may not be held liable for any damage to a vehicle before, during or after the installation or removal of this dashboard mount.

ProClip USA may not be held liable for any personal injury resulting from accident or improper use or installation.

The ProClip mount in the installation pictures may look slightly different from the one you have received. However, the same instructions apply.

Overview Picture

Note: The adhesive tape referred to below does not leave any marks or damage the dashboard, and it is easy to remove.

1.
Peel off the cover of adhesive tape on the ProClip. Place it in your hand so the ProClip label (sticker) is in an upright position, or if vertically positioned; the P in the beginning of ProClip is at the top.
Place the grooved edge on the upper part of the ProClip against the air vent panel frame inside the air vent.

2.
Press forward on the lower part of the ProClip so the grooved edge goes into the air vent and attaches to the lower air vent panel. Press until you see or hear/feel it snaps into place.

3.
The ProClip is now in place as shown here and in the overview picture above.
